PROFESSIONAL SUMMARY

Experienced software engineer with over 6 years in the industry, specializing in web and mobile development. Highly adaptable and flexible. Committed to delivering high-quality code and collaborating effectively within cross-functional teams to drive project success.

TECHNICAL SKILLS

- JavaScript • TypeScript • React.js • Node.js • React Native • Next.js • SASS • Material-UI • Tailwind CSS • Styled Components
- REST API • GraphQL • ContextAPI • Redux Toolkit • Strapi CMS • Contento • Vite • Vitest • React Testing Library
- GitLab • Bitbucket • Git • Jenkins • OpenShift • Docker • XCode • Android Studio • Github Copilot • Cursor AI

WORK EXPERIENCE

SOFTWARE ENGINEER | NOV 2024 - PRESENT

NCS Philippines | Taguig, Philippines

- Delivered new and enhancement features for different projects in the financial services industry primarily using React and React Native for web and mobile applications critical for business operations and customer experience
- Improved application scalability by utilizing Context API / Redux for efficient state management and to ensure seamless integration.
- Utilized CI/CD tools like Jenkins, OpenShift, and Docker to streamline build and deployment processes.
- Utilized Node.js to integrate custom middleware for authentication, logging, and error handling, enhancing application reliability, performance, and scalability
- Utilized Agentic AI tools such as GitHub Copilot and Cursor to accelerate development, automate code generation and improve debugging efficiency leading to faster delivery of features
- Collaborated with agile teams to swiftly address software defects and ensure timely deployment of features

SOFTWARE ENGINEER | SEPT 2022 - NOV 2024

White Cloak Technologies | Pasig, Philippines

- Served as primary contributor to development of responsive websites using technologies such as React.js, Next.js, TypeScript, SASS, and Styled Components. Focused on effective digital marketing for real estate and banking industries leading to increased user engagement
- Used GraphQL with Strapi CMS to enable efficient data queries and mutations, improving content management, frontend integration, and application performance
- Collaborated with agile teams ensuring end to end delivery from code reviews up to production release and maintenance

SOFTWARE ENGINEER | AUG 2019 - AUG 2022

Indra Philippines Inc | Pasig, Philippines.

- Assisted in the development of maintenance and enhancement features of web application projects for aviation industries using React.js and MaterialUI
- Developed unit test for web applications ensuring end to end testing coverage using Jest and React Testing Library
- Collaborated with QA to address and fix bug tickets

EDUCATION

STI COLLEGE GLOBAL CITY

Bachelor of Science in Information Technology
